COMMENCEMENT

Sunday, May Eleventh
Nineteen Hundred and Ninety-Seven

Dear Graduates:

Congratulations to you and to the family members who have been a part of the journey that has led you here today. It does, after all, take an extended Carolina family to make a Carolina graduate. That family includes relatives, teachers, mentors, friends, and everyone else who inspired you to meet the challenge to succeed at Chapel Hill.

As we celebrate your commencement, we also celebrate the 100th anniversary of the writing and performance of "Hark the Sound." With one small change, the song's original title, "Hail to the Brightest Star," is the perfect acknowledgment of your triumph. So for today I say, "Hail to the Brightest *Stars*!" You are the brightest new stars in the growing constellation of Carolina alumni, and I wish you the best of luck as you pursue all of the dreams and opportunities that the future holds for you.

Sincerely,

Michael Hooker
Chancellor

ONE HUNDRED YEARS OF "HARK THE SOUND"

For one hundred years, Carolina's sons and daughters have been singing the praises of their beloved University, but the alma mater we sing today is not the original. The original alma mater was written in 1897 and first performed by the University's Glee Club at the Commencement ceremony on June 2. Senior William Starr Myers, Class of 1897, is credited with writing the words, but fellow student Francis Gudger may have helped him.

According to Myers' son-in-law John McClean, Myers and Gudger, Class of 1898, penned the first version entitled "Hail to the Brightest Star." McClean remembers "four old men walking through the Carolina Inn at Mr. Myers' fiftieth class reunion as they tried to recollect who wrote the verses. Francis Gudger undoubtedly wrote one of the verses." Myers recorded the words in his diary in 1897:

HAIL TO THE BRIGHTEST STAR

Hark the sound of loyal voices
Ringing sweet and true
Telling out thy countless glories
Singing "N.C.U."

Chorus:
Hail to the brightest star of all,
Clear in thy radiance shine,
Carolina, priceless gem
Receive all praise as thine.

Hark the echo of those voices
Boys of long ago
Singing Carolina's praises
As through life they go.

So with future generations
That shall know thy love,
All shall join the happy chorus
Their affection prove.

Set to the tune of *Amici*, the alma mater was not performed for several years until another quartet tried to remember the words shortly after the turn of the century. The quartet consisted of J. C. B. Ehringhaus, Gaston G. Galloway, Dr. Charles S. Mangum, and Charles T. Woollen. They could recollect only the first verse and the chorus. Mangum and Woollen added two verses to the one they remembered. Mangum added a second verse and Woollen authored a third. Those verses go as follows:

'Neath the oaks thy sons true-hearted
Homage pay to thee,
Time-worn walls give back the echo
Hail to U.N.C.

Tho' the storms of life assail us,
Still our hearts beat true;
Naught can break the friendships forged
At dear old N.C.U.

The quartet's first verse seems to be an adaptation of the Myers/Gudger original. Tar Heel faithful still sing it today.

HARK THE SOUND

Hark the sound of Tar Heel voices
Ringing clear and true,
Singing Carolina's praises,
Shouting N.C.U!

Hail to the brightest star of all!
Clear its radiance shine!
Carolina, priceless gem,
Receive all praises thine.

The coda "I'm a Tar Heel born, I'm a Tar Heel bred, and when I die, I'll be a Tar Heel dead" was added sometime prior to 1920. *North Carolina Folklore* attributes the coda's origin to a Baptist camp-meeting spiritual with a similar rhythm. The lively ending to the song makes it unique among alma maters set to the *Amici* music.

The First Carolina Diploma

In September 1796, Carolina student Davie Gillespie began working with a group of men to determine the Southern boundary of the United States. His instructors gave Gillespie a document to carry as proof that he had been a student at The University of North Carolina. The document, now in the Library of Congress, was signed by his professors and ended with the statement, "We thought it proper to give him this certificate."

The University's first graduating class in 1798 included Hinton James, the first student to enroll. Seven men received the first documents that by today's standards can be called UNC-Chapel Hill diplomas. One of the original diplomas is in the Southern Historical Collection in Wilson Library.

During the University's early years, Commencement at Carolina was a time for examinations and promotions to higher classes. There was a commencement, but no degrees awarded and no graduation.

Notes on Academic Dress

The following information, condensed from An Academic Costume Code and Ceremony Guide *and published by the American Council on Education, may be helpful in identifying academic attire worn during today's ceremony.*

The history of academic dress dates back to the European Middle Ages when scholars at the oldest universities were clerics. Capes with hoods and warm caps were needed in cold, drafty buildings. The desire for a uniform appearance ("well born, well turned-out, and somewhat learned," read one medieval formula) and for marks to distinguish bachelor's, master's, and doctoral degree candidates led to the development of today's academic costume.

In 1895, representatives from American colleges and universities met at Columbia University and fashioned a standard code of academic dress for this country. The code, modified in 1959, is still in force. The costumes, colors, trimmings, and patterns you see are traditional, and refer to the specific degree and field of study.

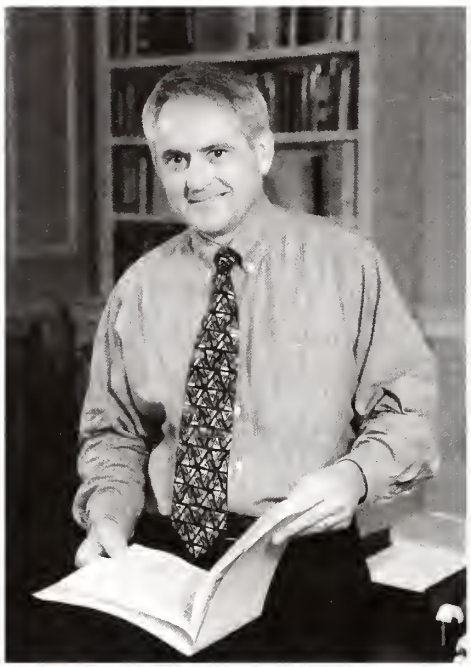
The bachelor's gown, designed to be worn closed, has pointed sleeves. The master's gown, which may be worn open or closed, has an oblong sleeve, open at the wrist, that hangs nearly to the ground; the back part of its oblong shape is square cut and the arc in the front is cut away. The doctor's gown may be worn open or closed, and has bell-shaped sleeves.

Bachelors' and masters' gowns are untrimmed. Doctors' gowns are usually faced with black velvet, with three bars across the sleeves, although the color of the velvet may vary according to the field of study. Hoods, which differ in length for the three degrees, are lined with official colors of the university or college that conferred the degree, usually with one color forming a chevron pattern over the other. Some colors you will see on faculty and administrators' robes are: the crimson of Harvard, the maroon of Chicago, the light blue and white of North Carolina, the orange and black of Princeton, and the dark blue of Yale.

Hoods also are edged and bound with velvet in the color appropriate to the field of study. You will see many hoods in our procession edged with dark blue, for doctor of philosophy (Ph.D.). The colors in the hoods and gowns of faculty represent the following fields in which degrees were taken:

Apricot: Nursing
Brown: Fine Arts
Citron: Social Work
Crimson: Journalism
Dark Blue: Philosophy
Golden Yellow: Science
Green: Medicine
Lemon-Yellow: Library Science
Light Blue: Education
Lilac: Dentistry
Olive-Green: Pharmacy
Orange: Engineering
Pink: Music
Purple: Law
Sage Green: Physical Education
Salmon Pink: Public Health
Scarlet: Theology
Yellow-Brown: Commerce, Business, Accountancy
White: Arts, Letters, Humanities

Michael Hooker, Chancellor



Michael Hooker became the eighth chancellor of The University of North Carolina at Chapel Hill, the nation's first state university, on July 1, 1995.

A native of Richlands, Va., Hooker earned his bachelor's degree with highest honors from Carolina in 1969 and master's and doctoral degrees in philosophy from the University of Massachusetts-Amherst in 1972 and 1973, respectively. He is an expert on seventeenth-century philosophy and has studied medical ethics and ethical problems linked to biotechnology.

Hooker's academic career has been extraordinary for a man of his years: president of a prestigious private school, Bennington College, at age 36; president of the University of Maryland-Baltimore County at age 40; president of the five-campus University of Massachusetts system at age 47; and chancellor of one of the nation's top public universities at 49.

At UMass, Hooker was responsible for more than 58,000 students, 3,378 faculty, and nearly 7,000 staff and administered a $1.2 billion budget. He assumed the presidency in September 1992 and immediately began crafting changes to improve the system. He first focused on teaching and learning, diversity and multiculturalism, and economic development. Later he tackled major restructuring of two campuses. A staunch believer in accountability, he issued the system's first-ever report card. Earlier this year, Hooker presented an unprecedented seven-part plan designed to lead the system into the twenty-first century. Hooker's work with the Massachusetts Legislature led to three successive years of substantial budget growth for the university system.

Hooker arrived at UMass from the 10,300-student University of Maryland-Baltimore County, which he led from 1986 to 1992. There he was recognized for strong support of minority educational initiatives, cultivating university-business ties and enhancing town-gown relationships.

He is credited with boosting total enrollment by 20 percent and graduate enrollment by 150 percent. Average freshman SAT scores jumped dramatically — by 150 points overall and by nearly 250 points for Black students. Retention also improved. He fostered the school's nationally recognized Honors College and launched a multi-million-dollar scholarship program for Black students gifted in science and technology.

As president of Vermont's Bennington College from 1982 to 1986, Hooker's term at the helm of the nontraditional, 600-student liberal arts school was cited by Yale University School of Management as an example of excellent management. He brought financial stability to the college and led efforts to create the school's first endowment. In 1984, while at Bennington, Hooker was featured in *Esquire* magazine's story on the "Best of the New Generation" — along with future United States President Bill Clinton.

From 1975 to 1982 Hooker held several posts at Johns Hopkins University, including dean of undergraduate and graduate studies for two years and member of the philosophy faculty. Hooker taught philosophy at Harvard University as an assistant professor from 1973 to 1975.

The chancellor has been a national leader in educational organizations. He is a member of the Association of Governing Boards' Advisory Board of Presidents and has served on the American Association of State Colleges and Universities' Committee on International Programs and chaired the American Council of Education's Commission on Leadership Development. He served on the board of Boston's nationally recognized public television station, WGBH.

Hooker also is active within North Carolina organizations. He serves on the Board of Directors of Centura Bank Inc. and the Triangle United Way Board of Directors.

Hooker chaired a biotechnology advisory panel for the United States Congress' Office of Technology Assessment from 1982 to 1984 and served on the Commission on the Future of Academic Health Centers in New England. He is a former member of the editorial board of the *Journal of Business Ethics*, editor of two books on philosophers Descartes and Leibniz, and author of numerous scholarly articles. He holds an honorary degree from Drexel University.

He is the father of a fifteen-year-old daughter, Alexandra. His wife, Carmen, a Philadelphia native, served six terms in the Massachusetts House of Representatives, including four years as chair of its Health Care Committee.

ERSKINE BOYCE BOWLES

DOCTOR OF LAWS
HONORARY DEGREE RECIPIENT

Erskine Boyce Bowles has been, since November of 1996, Chief of Staff to the President of the United States. In announcing the appointment, President Clinton said, "I wanted someone of stature, intellect, dedication, drive, and the capacity to do this virtually impossible job." Erskine Bowles had served the nation previously as administrator of the United States Small Business Administration and later as deputy chief of staff. It was in the latter position that President Clinton first found in Mr. Bowles a close friend and trusted adviser.

Erskine Bowles holds the degree of Bachelor of Science in Business Administration from this University and a master's degree from the Columbia University Graduate School of Business, where he was a McKinsey Scholar. He is the founder of Bowles Hollowell Conner & Co., a Charlotte-based investment banking firm. Under his leadership the firm achieved a reputation as one of the country's premier investment banking firms specializing in middle market transactions. Recently, he joined with Nelson Schwab III to found Carousel Capital, a merchant banking firm that is focused on acquiring middle market companies in the southeastern United States.

In addition to serving on the board of directors of a number of companies, Mr. Bowles has served as president of the Juvenile Diabetes Foundation and as a member of the boards of visitors of The University of North Carolina at Chapel Hill, Davidson College, and Johnson C. Smith University.

RITA DOVE

DOCTOR OF LETTERS

Rita Dove is among the most appreciated and honored of America's poets. Her works include several collections of poetry, two books of short stories, one novel, a collection of essays, and a verse drama. *Thomas and Beulah*, a collection of poems inspired by the lives of her grandparents, won the 1987 Pulitzer Prize for Poetry. From 1993 to 1995 Ms. Dove held the post of Poet Laureate of the United States. She is currently working on a song cycle for soprano Kathleen Battle. The poems will be set to music by composer John Williams and are scheduled to be performed in October with the National Symphony Orchestra at the Kennedy Center. The New York Philharmonic is planning additional performances for January 1998 at Lincoln Center.

Among her many honors, Rita Dove counts the Folger Shakespeare Library's Renaissance Forum Award for Leadership in the Literary Arts, a Gold Plate Award from the American Academy of Achievement, the Carl Sandburg Award from the International Platform Association, the National Book Award in Poetry (1991), and honorary degrees from some twelve institutions of higher learning. President Clinton chose her for a 1996 Charles Frankel prize in the humanities, less than a month after she had received a 1996 Heinz Award. These are but a few examples of the many awards and distinctions that Rita Dove has achieved since her first award ceremony at the White House, when she was named a 1970 Presidential Scholar after having been identified as one of the top one hundred high school graduates in that year.

Rita Dove received her bachelor's degree in English from Miami University in Ohio, graduating *summa cum laude* and Phi Beta Kappa. She has done postgraduate work at the Universität Tübingen (Germany) and the University of Iowa. She has earned fellowships from the National Endowment for the Arts (1978, 1989), the Guggenheim Foundation (1983-84), and the National Humanities Center (1988-89). She teaches creative writing at the University of Virginia, where she is Commonwealth Professor of English. She is the youngest person, second woman, and first African American to have been chosen Poet Laureate and is one of only two African American women to have won the Pulitzer Prize.

EUGENE DOMINICK GENOVESE

DOCTOR OF LETTERS

Scholars agree that Eugene Genovese is on everyone's short list of the greatest living American historians. In a series of brilliant books and essays, he has not only set the research agenda in the fields of southern history, slavery studies, and African American history, but has also challenged American scholars with theoretical perspectives that have greatly enlivened those fields. His first book, *The Political Economy of Slavery: Studies in the Economy and Society of the Slave South* (1965), brought a sophisticated Marxian perspective to bear on the antebellum South's society and economy and influenced a generation of historical writing. In *Roll, Jordan, Roll: The World the Slaves Made* (1974), he gave us what remains the best reading of the life and culture of enslaved African Americans. His forthcoming book, *The Mind of the Master Class*, co-authored with Elizabeth Fox-Genovese, his wife and an eminent historian in her own right, will provide the most perceptive interpretation of the world view of the South's white, Protestant, slaveholding class.

A native of Brooklyn, New York, Dr. Genovese earned his Ph.D. from Columbia University in 1959. He was for many years a distinguished member of the faculty of the University of Rochester and until his recent retirement was Distinguished Scholar-in-Residence at the University Center in Georgia. His honors include: the Ingersoll Foundation's Richard M. Weaver Award for Contributions to American Letters (1993), the Award for Literary Achievement from the American Academy of the Arts (1976), and for *Roll, Jordan, Roll*, which was selected by the *New York Times* as one of the ten best books of 1974, the Bancroft Prize, the Frederick G. Meltzer Award, and the Ainsley Wolfe Award. He has been elected to membership in the American Academy of Arts and Sciences, the Society of American Historians, the American Antiquarian Society, and the St. George Tucker Society.

ALICE MITCHELL RIVLIN

DOCTOR OF LAWS

Alice Rivlin has devoted much of her long and distinguished career to working with the federal budget, a document that is one of the key expressions of our priorities as a society. She was the founding director of the Congressional Budget Office, a post she held from 1975 to 1983. This assignment required her to create an agency whose economic estimates would have broad credibility with members of Congress across the entire political spectrum. She has held several posts at the prestigious Brookings Institution, and is a prolific author and editor of books and articles on budget, tax, health care, and related public policy issues. Her books include *Reviving the American Dream: The Economy, the States, and the Federal Government* (1992), *Systematic Thinking for Social Action* (1971), and *The Role of the Federal Government in Financing Higher Education* (1961).

The influential British journal, *The Economist*, once characterized Alice Rivlin as "a deficit hawk with razor-sharp talons" in recognition of a career that has focused on the daunting challenge of balancing the federal budget. Her keen insights into national fiscal policy have contributed greatly to the national debate on how best to accomplish that goal. A self-described "pragmatic optimist," she has been an articulate advocate for applying dispassionate analysis to government programs. A skeptic toward claims of easy solutions, she has also been willing to offer consistent, if controversial, proposals for correcting policy failures. She writes not merely for political elites and economic specialists, but for ordinary citizens to understand issues and choices more clearly. She is a recipient of a MacArthur Foundation Prize Fellowship, has taught at Harvard University and at George Mason University, has served on the boards of directors of several corporations, and is a past president of the American Economic Association.

In 1993 President Clinton named Ms. Rivlin assistant director of the Office of Management and Budget and in 1994 he named her director. She served with distinction in that position until 1996, when she was appointed to a four-year term as vice chairman of the Board of Governors of the Federal Reserve System, to run concurrently with a full fourteen-year term as a member of the Board.

Born in Philadelphia, Ms. Rivlin grew up in Indiana and still considers herself a Hoosier. She holds an undergraduate degree from Bryn Mawr (1952) and earned her Ph.D. in economics from Radcliffe College (1958).

WILLIAM DOYLE RUCKELSHAUS

DOCTOR OF LAWS

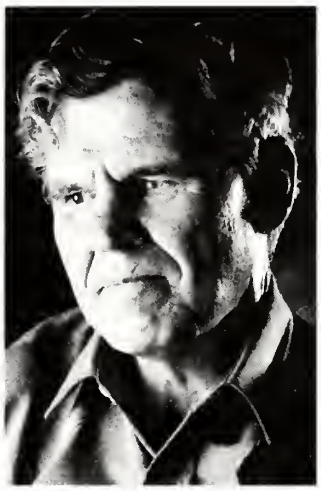
In the politically volatile and often partisan world of environmental policy, William Doyle Ruckelshaus epitomizes the ideals of statesmanship, personal integrity, and cooperation toward the attainment of common civic goals.

Mr. Ruckelshaus is a graduate of Princeton (*cum laude*, 1957) and the Harvard Law School (1960). He has twice headed the United States Environmental Protection Agency. In 1970 President Richard Nixon appointed Mr. Ruckelshaus as EPA's first administrator. During that term he set the standard for the agency's vigorous commitment to enforcement of environmental laws and established its reputation for integrity and independence of undue political influence. In 1983, after the EPA's reputation had become tarnished, President Ronald Reagan called William Ruckelshaus back into public service. He restored public trust in the EPA and boosted its internal morale by returning to a policy of vigorous enforcement of the law and leading the agency in innovative directions such as risked-based decision making, pollution prevention, and economic incentives to achieve the spirit rather than the letter of the law.

In private life, Mr. Ruckelshaus served for a decade as vice president of the Weyerhauser Company, and was for the past several years chief executive officer of Browning-Ferris Industries, one of the world's largest environmental waste management firms. He now serves BFI as chairman of the board. He also heads the Enterprise for the Environment, a broadly based nonpartisan initiative to make American environmental laws both simpler and more effective.

ARTHEL LANE (DOC) WATSON

DOCTOR OF LETTERS



Vocalist, guitarist, banjoist, and recording artist Doc Watson has brought the folk music of North Carolina to a national and international audience. A native of Deep Gap in Watauga County, he made his first appearance at a fiddlers' conference in Boone. He went on to perform throughout the world, including appearances at the White House, Carnegie Hall, and the Newport Folk Festival. His albums (many with his son, Merle) include "Southbound," "Red Rocking Chair," "The Guitar Album," "Riding the Midnight Train," "Portrait," "Songs for Little Pickers," and "On Praying Ground." He is a five-time Grammy Award winner.

Doc Watson was born into a family with a rich musical tradition. His early instrumental experience was with a harmonica and a homemade banjo, but at age 13 he taught himself the chords to "When the Roses Bloom in Dixieland" on a borrowed guitar. His father was so pleased that he helped him buy his very own $12 Stella guitar the next day. Watson's music blends traditional Appalachian folk music with blues, country, gospel, and bluegrass. He is credited with being the first to play mountain fiddle tunes on the flattop guitar. In 1995, the *New York Times* called him "a living museum of American roots music."

Doc Watson began his public performing career in 1953, when he joined Jack Williams' rockabilly/swing band, which played a style that he revived on his latest recording, "Docabilly." The folk revival of the 1960s propelled him to national prominence. In 1961 he appeared at a Friends of the Old-Time Music concert in New York, and performed alone for the first time in 1962 at Gerde's Folk City in Greenwich Village. After fascination with folk music waned in the late 1960s, Doc Watson and his son Merle toured extensively, taking their music to Europe and Japan. He briefly stopped playing after Merle died in a 1985 accident, but he still accepts some engagements. For several years, he has hosted the Merle Watson Memorial Festival in Wilkesboro.

The University Seal

The first seal of The University of North Carolina, designed in 1790, showed the face of Apollo and his emblem, the rising sun, used to symbolize the dawn of higher education in the state. The words "SIGUL UNIVERSITAT CAROL SEPTENT" (Seal of The University of North Carolina) surrounded the drawing.

A modification in 1895 added lighted torches of learning beside Apollo's profile. Two years later another alteration replaced Apollo's head with a shield on which the words Lux (light) and Libertas (liberty), separated by a white band running from the upper right to the lower left of the shield, appeared.

In the 1940s some observers mistakenly claimed the white stripe on the shield was a bend sinister, a heraldic code that was demeaning. In truth, the stripe was a bar sinister and merely denoted a second or later son. Still, the direction of the stripe was reversed, removing any question of stigma.

Today's seal is the same as the 1897 version, except the stripe runs from the upper left to the lower right.

When I arrived at Carolina to attend the Master of Public Administration Program, I knew that I would learn valuable skills at one of the nation's top programs. However, as a graduate student I never expected to enjoy Carolina's campus life as much as I have. Between study sessions, I have played pool at the Union, taken OIT computer classes, helped clean up the campus after Fran, and cheered on the Tar Heels.

KYLE GRAY

Class of 1997 Gift

Every year the Senior Class presents a gift to the University as a lasting remembrance of their Carolina experience. The Class of 1997 continues this tradition by repairing and reconstructing the wisteria arbor of the Coker Arboretum with a gift of $30,000.

The new arbor will be dedicated in memory of the five students who died in the May 1996 Phi Gamma Delta fraternity house fire. Donations from seniors and parents total over $23,000, and the class hopes to have the full amount raised by June 30. Seniors who wish to contribute may contact the Development Office at 962-1372.

What is the Carolina Experience? It is... sitting in the quad on a sunny day laughing with friends, spending hours at the Pit debating campus issues, talking with professors and sharing in their knowledge. It is standing atop the Bell Tower looking back on the campus, thinking of the friends and wisdom gained; then looking forward with confidence to see what the rest of the world offers.

There are just too many opportunities at Carolina, and it is sad that I have to leave now, when there are so many niches I have not yet explored. Still, the glory of this moment is exquisite.

Saying good-bye to a place that has enriched my life in so many ways proves difficult. I have gained knowledge and a sense of independence that I am confident will help me face the challenges ahead. I have met wonderful people and formed lasting friendships. These special gifts I will treasure for life.

My experience at Chapel Hill has prepared me for anything I might face and helped me make the next step in life's journey. Even more valuable, however, are the great people and lifelong friends I met along the way. No matter where I end up, a little Carolina blue sky will always be over me.

I came to Carolina because I thought it offered a well-rounded education, and after four years, I suddenly realize the importance of that decision. Carolina gave me the chance to be part of an active student body, learn with the guidance of prestigious faculty, and make a valid contribution to the University community. I look forward to the nearest opportunity to give back to a University that nurtured me through four of the most important years of my life.

One thing that I have enjoyed the most as a student at UNC is being involved in many different activities and organizations. This has allowed me to become friends with a diverse group of great students and members of the community. They have taught me much about myself and the society we live in. More importantly, they made my experience at UNC a fun one!

The best part of this place are the intangibles—the buzz in the air on a cool, crisp football Saturday, the solitude of studying in the Arboretum on a spring day, the inspiration and desire to learn instilled in me by my professors. I have made the most of my precious time at Carolina; my only regret is that I can't do it all over again.

UNC-Chapel Hill: The First State University

The University of North Carolina at Chapel Hill originated in the N.C. state constitution of 1776, which proclaimed that "all useful learning shall be duly encouraged and promoted in one or more universities."

Carolina's charter was approved in 1789 and the cornerstone of the first building, Old East, was laid on October 12, 1793. The University annually celebrates Carolina's birth date each October 12. In 1795 the University opened its doors for students.

The University of Georgia at Athens also claims the honor of "first state University." Georgia's constitution of 1777 lays no foundation for state-supported higher education. The university was chartered in 1785, four years before UNC, and those who claim the honor of "first state university" for Georgia refer to this date.

North Carolinians contend that a university begins not when chartered, but when students first enroll in instructional programs and use the school's facilities.

The University of Georgia did not open until 1801, six years after Hinton James enrolled as the first student at The University of North Carolina at Chapel Hill. Three years after his arrival Carolina graduated its first class.

Carolina has made a unique imprint on my heart. I will always remember having class outside on a sunny day and I'll miss seeing all of the familiar faces on campus. Why a Ram for a Mascot?

In 1924 Vic Huggins, UNC's head cheerleader, decided that Carolina needed a mascot like N.C. State's Wolf and Georgia's Bulldog. At the time, Jack Merrit, known to his fans as the "Battering Ram," was a popular member of UNC's football team. Making use of this nickname, Huggins hit upon the idea of a ram as the Carolina mascot.

The cheerleader went to Charles T. Woollen, the University's Business Manager, and asked him to find twenty-five dollars to buy a ram. They ordered UNC's first mascot from Texas.

The 1924 team had been in a slump and Carolina fans were looking for something to break the jinx. The Tar Heel sports staff joined the campus in hoping that the new mascot would bring the much-needed luck.

The mascot, who was named Ramses, arrived in time for the UNC-VMI game on 8 November 1924. The fans saw a defensive struggle. No one scored until late in the fourth quarter when a UNC player executed a perfect dropkick for a 3–0 victory. Carolina fans credited the first Ramses' presence for pulling Carolina past VMI, and giving birth to the long line of rams who have witnessed Tar Heel games.

A Message to Carolina's Newest Alumni

The General Alumni Association (GAA), founded in 1843, is a self-governed, non-profit organization, funded primarily by membership dues. The GAA conducts no fundraising.

Membership in the GAA is open to all alumni and friends of the University. There are almost 56,000 members, including 27,000 Life members.

Membership benefits include an annual subscription to the award-winning bi-monthly *Carolina Alumni Review*, invitations to GAA-sponsored events (class reunions, alumni club activities, enrichment programs, weekend seminars, travel programs, etc.), eligibility for group health and life insurance, the Carolina Alumni VISA card, and discounts on hotel rates and car rentals.

New graduates may be particularly interested in our Alumni Career Services. They include DISCOVER Career Guidance Software, worldwide job hotline numbers, the Alumni Adviser Network, professional consulting and seminars, national employer databases, job postings, and many more services.

There are also opportunities to network through alumni club programs. Approximately one hundred local Carolina Clubs throughout the United States and abroad provide a variety of activities for Carolina alumni and friends.

The GAA Records Department maintains an alumni database of more than 209,000 living alumni. Please make sure your record is kept up-to-date, including your current address.

The GAA offices are in the George Watts Hill Alumni Center. Located near Kenan Stadium on Ridge Road, the Alumni Center hosts a variety of GAA programs and activities that serve the University community. The Alumni Center also contains the Carolina Club, a dining club for alumni, faculty, and staff.

If you have questions or would like to join the GAA, please stop by or call (919) 962-1208 or the toll-free number 1-800-962-0742. The e-mail address is <membership@unc.edu>.

Polk Place

In the early 1920s the Committee on the Development of University Property recommended that an undeveloped area south of South Building be laid out in a quadrangle similar to the area north of South Building. The two areas became known as South Quadrangle (between South Building and Wilson Library) and North Quadrangle (between the Old Well and Franklin Street).

In June 1941 the University's Board of Trustees voted to rename North Quadrangle "McCorkle Place," honoring Samuel E. McCorkle, a founder of the University. At the same time, South Quadrangle was named "Polk Place" in honor of James Knox Polk, Class of 1818, the only Carolina graduate to date to become a United States President. Polk's dormitory room on the southwest corner of the third floor of South Building overlooked the area that bears his name.

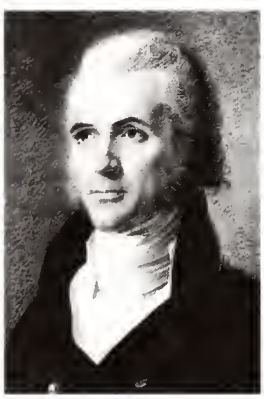
WILLIAM RICHARDSON DAVIE



More than any other person, William Richardson Davie directed the forces that created the University. He was influential in guiding the University's charter through the legislature, helped choose the location for the campus, proposed legislation for funding the University, and played a large role in determining the faculty and courses of study.

Born in England in 1756, Davie moved when he was about eight years old to the Waxhaws near the South Carolina border. He received his collegiate education at the College of New Jersey (later Princeton) and in 1776 became a military leader in the American Revolution. After the war Davie practiced law in Halifax and at age thirty he started a career of public service.

An ardent Federalist, Davie began in 1789 working for North Carolina's ratification of the United States Constitution as well as the chartering of The University of North Carolina.

"Davie was not an educator by profession," wrote Archibald Henderson, "but he grasped the cardinal fact that the training of leaders in public life for solving the many complex tasks in the new republic could be accomplished, in the long run, only through the establishment of . . . a state university."

During most of the 1790s Davie was Grand Master of the state's Masons. Hence the laying of the cornerstone of Old East on 12 October 1793 was a Masonic ceremony. Davie died in 1820.
